MEMORANDUM

OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

SUBJECT: Vinclozolin Avian Reproduction Protocol

FROM: James Akerman, Chief *H.T. Caven*
Ecological Effects Branch
Hazard Evaluation Division (TS-769c)

To: L. Rossi, Product Manager (21)
Herbicide - Fungicide Branch
Registration Division (TS-767c)

This submission contains a letter dated February 27, 1987 from BASF Corp. which covered an avian reproduction protocol designed to include the comments of Larry Turner of EEB, from a meeting on October 10, 1986. The study was requested by the Canadian government, and BASF Corp. was trying to design it to meet both their needs as well as ours. However, the protocol indicates that the physical portion of the study would be completed by June 10, 1987 with the possibility of a delay of one or several weeks dependent on the duration of egg laying. Therefore, since it is unlikely that EEB's comments can be incorporated at this point, EEB will defer commenting until the completed study is submitted. Please call Dennis McLane for any further questions.

Subject: Ronilan Fungicide - EPA Reg. No. 7969-53

Reference: Your letter dated March 24, 1986
BASF letter dated August 5, 1986

Dear Ms. Rossi:

On 10/10/86 Dr. Munk, Jim Clark and Jack Graham of BASF met with Henry Jacoby and Larry Turner (EPA Wildlife Biologist). A draft protocol for an avian reproduction study prepared by Dr. Munk to answer the concerns raised by the Canadian Registration Authorities and subsequently by EPA was discussed. Minor adjustments to the protocol were agreed upon with both Canadian Registration Authorities and EPA. These minor adjustments have been encompassed into the attached final protocol dated January 30, 1987 (Project No. 72W466/86051). This protocol is also being dispatched to the Canadian Registration Authorities.

Sincerely,

BASF CORPORATION CHEMICALS DIVISION
Agricultural Chemicals Group

Jack R. Graham

Page _____ is not included in this copy.

Pages 4 through 20 are not included in this copy.

The material not included contains the following type of information:

- _____ Identity of product inert ingredients.
 - _____ Identity of product impurities.
 - _____ Description of the product manufacturing process.
 - _____ Description of quality control procedures.
 - _____ Identity of the source of product ingredients.
 - _____ Sales or other commercial/financial information.
 - _____ A draft product label.
 - _____ The product confidential statement of formula.
 - _____ Information about a pending registration action.
 - ☒ _____ FIFRA registration data.
 - _____ The document is a duplicate of page(s) _____.
 - _____ The document is not responsive to the request.
-

The information not included is generally considered confidential by product registrants. If you have any questions, please contact the individual who prepared the response to your request.
